

# *S.H. 44 Corridor Preservation Study*

## **Study Background**

**The study is being conducted because:**

- **Rapid growth in the region and increased traffic on S.H. 44**
- **Development is changing the land use within the corridor**
- **Increasing costs to purchase right-of-way**
- **S.H. 44 is one of few east-west roadways motorists use to travel between Ada and Canyon counties**
